Investment in rail projects and upgrades is set to surge in the West Midlands and there is already a proven need for qualified and skilled rail workers within the region. National Infrastructure Solutions is working in partnership with City of Wolverhampton College and West Midlands Combined Authority to deliver a rail training programme in order to fulfill the need for rail labour in the industry.

This is an employment led initiative to support people into jobs and careers in the rail track industry. This course will give you the skills and relevant qualifications you'll need to begin a career in this sector and when you've finished your training, you will be guaranteed an interview with a relevant employer.

Whether you're a person looking for a rewarding first job, a change in career or someone returning to work, opportunities await in a sector you may not have previously considered.

What to do next

Training programmes run throughout the year. Once you have indicated an interest through the form on our website, which you can find at this link:

<https://www.nisgroup.co.uk/funded-training>

We will send you details to talk to us & commence with the enrollment procedure at our location to ensure you are eligible for the training.

Then we will invite you to the next information session, where you will be able to sign up in order to start your training.

If you have any questions concerning what we offer, feel free to give us a ring or email us and we'll get back to you as soon as we can.

During the information session you will be given details of the planned training, funding guidance as well as the potential work outcomes.
